Dear Dr. Tai:

Thank you for your help with getting my hormones in balance! The transdermal creams you recommended for me have worked tremendously well. In four months my biological age has reduced from 90 years old to 30 – not bad for a 55-year-old woman. In addition, the night sweats have minimized to only occasional warm spells. I am very happy with these results!

Also, by using the Weight-In-Inches product, combined with the MaxThyroid Specialist and your recommended diet changes, I have successfully lost over 20 pounds in four months and continue to lose every day. Losing this excess weight, especially around my mid-section, has made gardening much easier and has increased my overall energy. I no longer feel like a stuffed potato when bending over!

I very much appreciate your personal interest and recommendations, as well as your continued encouragement and support as I undergo this transformation. I look forward to a terrific summer.

Sincerely,
