

Max Repair Specialist

Our body is in perpetual struggle between negative breakdown from infection, environmental attacks, inflammation, and cell death and the positive renewal of improved immunity and healthy new cell growth. In other words, billions of cells die and billions of new cells are reborn daily. Your body and life depends on it!!

This revolutionary supplement formulation is a powerful combination of 3 technologies:

1. Clinically proven active ingredients of concentrated milk proteins, antibodies, and bioactive micronutrients. It is a powerful anti-inflammatory on the cellular level by reducing the destructive neutrophil cellular migration to the inflamed tissue areas. As a result, it fundamentally breaks the "cycle of inflammation and pain" with lower levels of COX₂, 5-LO, and Arachidonic Acids, so your whole body feels better, has greater flexibility, and experiences less pain.
2. Colostrum, rich in immunoglobulins IgA, IgD, IgE, IgG, and IgM, protects your body from invading bacteria, viruses, and yeast.

The powerful self regulation of Proline Peptides suppresses self destructive autoimmune response from attacking our own body tissue. Cytokines, Interleukin 10, and lymphokines are natural enemies and function as a highly effective anti-tumor.

3. Deer antler extract that has refined and concentrated Natural Growth Factors. Our body's repair system is highly dependent on specific tissue growth factors to signal and control the repair process. Like a natural chemical "switch" that coordinates all body tissues on healthy growth, reproduction, and maturity.

Specifically, Epidermal Growth Factor (EGF), Nerve Growth Factor (NGF), Vascular Growth Factor (VGF) Insulin Growth Factor I and II (IGF I & II), and Transfer Growth Factor (TGF) controls and stimulates all the above tissues to maximum health and maximum repair.

Max Repair Indication: Osteoarthritis, rheumatoid arthritis, injury, athlete's body recovery, pain, swelling, fibromyalgia, post-surgery, immune diseases.

- Directions: Take (1) capsule three times daily, with food or (2) capsules twice a day for higher effectiveness.

✚ Packaging: 90 capsules per bottle.
